In the month of June, the bears of the Alaska Peninsula bide their time as they await the influx of Bristol Bay salmon by feeding on the shores of the Shelikof Strait. They feed by grazing on fresh grass shoots, digging for clams, and combing the beach for carrion. Accommodations are at Crystal Creek Lodge, in a Lodge Room.

Due to its span of almost the entire width of the peninsula, it has been a transition course between the ancient people of Bristol Bay and Kodiak Island for thousands of years. DAY FOUR

Explore Bristol Bay & Aniakchak Volcano

Take a nice walk along the shoreline of Bristol Bay, a great place to enjoy beachcombing. A real treasure to find is the round, hand-blown glass floats used by Japanese fishing vessels 30-75 years ago. After flying across the Alaska Peninsula National Wildlife Refuge and along the Pacific Coast, the Aniakchak volcano is the ultimate goal by wheeled plane. In a state known for isolated areas, this region is one of the most rugged, remote, and beautiful. Accommodations are at Crystal Creek Lodge, in a Lodge Room.
